

Mission:

TechTwist Corporation is dedicated to empowering businesses with innovative technology solutions that enhance efficiency and drive success, establishing lasting partnerships in a rapidly evolving digital world.

Core Services:

System Sales & Design: Custom-tailored solutions to meet industry-specific needs.

System Commissioning: Ensure flawless setup and integration.

Technical Training: Empower teams to utilize the latest technologies.

Project Implementation: Seamless end-to-end project execution.

Support & Maintenance: Ongoing support for reliable system performance.

Industries Served:

Media and Broadcasting: Providing top-of-the-line equipment and system integration for broadcast stations.

Government Agencies: Delivering secure and reliable tech infrastructure to improve public services.

Corporations & Enterprises: Offering advanced solutions for data storage, system automation, and IT management.

Milestones:

- **Over 10 Years of Service Excellence:** We have been proudly serving our clients for over a decade, providing reliable and innovative solutions.
- Successfully deployed large-scale broadcast systems for national TV stations, optimizing their operations and content delivery.
- Partnered with major government projects to modernize IT infrastructure, enhancing digital security and communication efficiency.
- Implemented high-capacity storage solutions for enterprises, reducing operational downtime and ensuring data security.
- Provided specialized training and certifications to client teams, ensuring that technology investments are fully maximized.
- Expanded into international markets by securing partnerships with global tech leaders like Telestream and Cloudian, reinforcing our position as a trusted provider in Southeast Asia.
